

# Glass Expansion Interface Cones for TOF-ICP-MS Mass Cytometers

## Guaranteed performance Immediate delivery

Glass Expansion has over 30 years of experience in manufacturing ICP-MS sample introduction components and has earned a world-wide reputation for quality and reliability.

We are proud to be the first and only cone manufacturer with the required technology and equipment to produce the full range of interface cones entirely in-house.

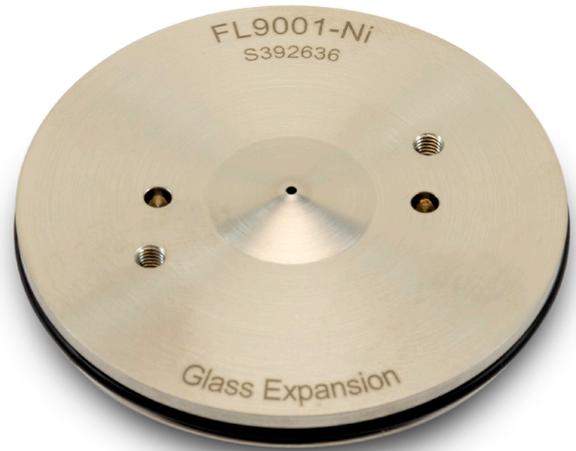

Glass Expansion's manufacturing capabilities for this include: CNC machining, precision grinding, electron beam welding and electrodeless nickel plating. This results in our company being able to maintain the highest level of precision, quality and reliability standards.

## Glass Expansion Warranty

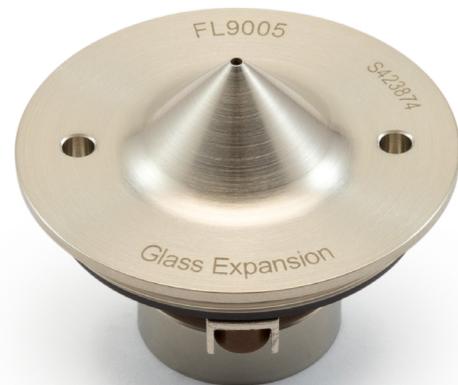

We are now able to offer our line of high quality cones for Mass Cytometers and invite you to take advantage of our Guarantee:

- Meet or exceed OEM specifications
- Satisfaction guaranteed
